Mr. Ronald Gustafson  
Merit Screw Machine Products  
2910 S. 17th Avenue  
Broadview, Illinois 60153

EPA Region 5 Records Ctr.

379308

Dear Mr. Gustafson:

On September 21, 1983, representatives of the Illinois Environmental Protection Agency inspected your facility. The purpose of this inspection was to determine your facility's compliance with the Environmental Protection Act, Ill. Rev. Stat. 1982, Ch. 111 1/2, pars. 1001 et seq., as amended, and regulations adopted by the Illinois Pollution Control Board.

At the time of the inspection it appeared that you are a small quantity generator. Therefore, if you comply with the requirements of 35 Ill. Adm. Code 721.105 you will not otherwise be subject to regulation under 35 Ill. Adm. Code 722 through 725, 40 CFR 122 through 124 and the notification requirements of Section 3010 of RCRA. Should you in the future no longer qualify for the small quantity exemption specified in 35 Ill. Adm. Code 725.105, please be advised that you will have to comply with 35 Ill. Adm. Code 720 through 725, 40 CFR 122 through 124, and the notification requirements of Section 3010 of RCRA.

Please confirm in a letter to us, within 15 days after receipt of this letter, whether you qualify for the small quantity exemption specified in 35 Ill. Adm. Code 721.105. Please send such documentation to Lynn Crivello at the above address, and carbon copy the U.S. EPA, Region V, RCRA Activities at 230 South Dearborn Street, Chicago, Illinois 60604.

Sincerely,

A handwritten signature in dark ink, appearing to read "Kenneth P. Bechely".

Kenneth P. Bechely, Northern Region Manager  
Field Operations Section  
Division of Land Pollution Control

(L) Preparer Information

Name	Agency/Title	Telephone
<u>LYNN CRIVELLO</u>	<u>EPA/EPS</u>	<u>(312) 345-7780</u>

\*Do not use this form if Generator is also a treatment, storage, and/or disposal facility.  
Complete form "A" if the Generator is also a TSD facility.

## II. BRIEFLY DESCRIBE SITE ACTIVITY

THIS FACILITY IS A PRECISION MACHINE SHOP (JOB SHOP) FOR NUTS & BOLTS. The company uses mineral spirits for cleaning. This eventually ends up in the cutting oil which is recycled by the West Screw Company. Trichloroethylene is used for degreasing at the rate of ONE DRUM per year. The Trichlor is mixed with gear box oil and is picked up by Northbranch Waste Oil. I told Mr. Gustafson that this was not a proper method of disposal and should be discontinued. The facility is a small quantity generator.

## III. MANIFEST REQUIREMENTS (Subpart B)

	Yes	No	NI*	Remarks
(A) Does the operator have copies of the manifest available for review?	___	___	___	_____
(B) Do the manifest forms reviewed contain the following information? (If possible, make copies of, or record information from, manifests that do not contain the critical elements)				
1. Manifest document number?	___	___	___	_____
2. Name, mailing address, telephone number, and EPA ID number of generator?	___	___	___	_____
3. Name and EPA ID Number of transporter(s)?	___	___	___	_____
4. Name, Address, and EPA ID Number of designated permitted facility and alternate facility?	___	___	___	_____
